

## RECOMMENDED TRANSPORT OPTIONS FOR DELEGATES

To ensure our international delegates enjoy a seamless, secure, and comfortable travel experience during their stay in Nairobi, we are pleased to recommend two reliable transportation options: Jim Cab Services and Uber.

- 1) Jim cab Services is our preferred transportation partner for airport transfers, hotel movements, and event-related travel. Known for its professionalism and reliability, Jim cab has a strong reputation for serving both corporate and international guests. The company will offer rides from Jomo Kenyatta International Airport (JKIA) to hotels and conference venues as per your desire.

In addition to high service standards, Jim cab offers 24/7 customer support, flight tracking for timely airport pickups, and a variety of transport options, including 4-seater cars, 6-seaters, 14-seaters, and minibuses. They also provide flexible billing and transparent pricing suited for international clients. The company will offer a dedicated Google booking form link, an international-friendly payment portal, a dedicated email and a dedicated WhatsApp contact for easy communication.

- 2) For delegates seeking flexibility, we also recommend Uber services, a global transport company that operates efficiently throughout Nairobi. Uber is convenient and familiar to many international guests. With various ride options such as UberX (standard rides), UberX (for larger groups or extra luggage), and Uber Van (premium rides), Uber caters to different travel preferences and group sizes.

Uber's features — including real-time GPS tracking, ride-sharing, upfront fare estimates, and 24/7 availability — offer added safety, control, and convenience for users. Delegates can confidently use Uber for airport transfers, hotel commutes, travel to conference venues, or city exploration during their free time.

By advocating for both Jim cab and Uber services, we aim to provide our international delegates with trusted and flexible transport solutions, enabling a smooth and focused conference experience. We encourage all guests to pre-download or update the Uber app and look out for the Jim cab booking links for easy access upon arrival.
